TravelPlus is a medical emergency alert that can help find a doctor when you are out of the country, contact your family members, provide 24-hour access to information services including visa, passport and immunization requirements for your destination and provide coverage even with a pre-existing condition. Has access to translators in major languages. Also has access to an Emergency Response Center Sunday-Saturday 24 hours

Here is the way it works. You purchase a MedicAlert (medical identification bracelet or pendant for the individual to wear). Etched on the back of the ID will be that person's confidential identification number, medical condition and any medications.

24/7 emergency services to relay your critical medical information in times of need.

Service Area(s)

Nationwide
