Staff is committed to providing the highest level of hearing healthcare and hearing aid sales and service in a comfortable and professional private practice setting. Offers audiologists, otolaryngologists and speech pathologist.

An otolaryngologist is a physician who specializes in and performs surgery on the ear, nose and throat, including endoscopic sinus procedures and laser surgery. In this practice facial plastic and head and neck surgery with reconstruction are also included. We do not treat diseases or symptoms outside of these areas unless related to an ear, nose or throat problem.

Staff also provides allergy diagnosis and treatment, diagnosis of voice disorders, pediatric otolaryngology, head and neck surgery, facial plastic surgery, and more.

Offers diagnostic assessment and hearing aid rehabilitation for those patients with appropriate hearing loss. Emphasis on digital hearing aid technology. All offices are fully equipped for providing services to all ages, infants through geriatrics.

Our Fairfax office has two complete sound-proof hearing test booths along with a separate test room for advanced hearing and balance assessment.
