Virginia Alcohol Safety Action Program (VASAP) offers education and driver safety programs for substance abuse, alcohol offenders who drive, first-time offenders, and habitual offenders; offers aggressive/reckless driver classes, Ignition Interlock program, and the basic driver improvement programs for individuals who want to receive positive points to their driving record.

The Alcohol Safety Action Program (ASAP) offers a court-mandated program for DUI offenders and first-time drug offenders respectively. The goal of ASAP is to improve highway safety by reducing alcohol-related arrests/accidents through the achievement of two general objectives: to create general deterrence to drinking and driving by the public at large, and to produce a specific deterrence to prevent recidivism by those arrested for driving while under the influence (DUI) of alcohol and/or drugs.

Defendants entering the court-mandated program are evaluated and assessed for placement in driver education (Alcohol or drug education), alcohol and/or drug counseling, relapse prevention, or a combination of education and counseling. ASAP acts as a probation facility for the courts to include monitoring the participation of referred defendants, resulting in either certification of compliance or return to court for non-compliance.

Programs offered include Intensive Education; Intensive Education (in Spanish); Drug Education; Multiple Offender License Restoration Evaluations and Suspended Driving Intervention Interviews. Call for more information about one of these programs.
