ME/CFS publishes a once a month newsletter on Myalgic encephalomyelitis (ME) Chronic Fatigue Syndrome (CFS), also known as chronic fatigue and immune dysfunction syndrome (CFIDS), a complex and debilitating chronic disease with a serious impact on one's quality of life.

Sign up for the free newsletter offering the latest research, policy and organizational news, as well as occasional information about media coverage and events of interest. If you have CFIDS or care about someone who does, please join

The CFIDS Association of America. Members share an important stake in our mission, to conquer CFIDS, and also receive valuable membership benefits.

Under the [Community: Resources and Links](#), you can find links to web sites of possible interest to the CFS community; information for and about support groups and more.
