Mautner Project has long since served as a cornerstone for educating health providers, health consumers, community activists and others about the need for LBT (Lesbians, Bi-sexual and Transgender individuals) specific and targeted health programming and outreach.

Educates the lesbian community on HIV/AIDS through public speaking, leaflets and other educational events, and seeks to educate health care providers about the needs of lesbian patients. The Mautner Project provides phone support and support groups for LBT women.
