The Emergency Cardiovascular Programs Department of the American Heart Association offers several courses to help you save a life.

Courses offered include CPR for Friends and Family, Heartsaver First Aid, CPR, and the Heartsaver AED courses. These courses teach the basic techniques of adult CPR and how to use an Automated External Defibrillator (AED). AED is most commonly found in airports and other public areas for those trained to use the device.

To locate a course in the near you, offered all over Virginia, use the [ECC Class Connector](#) on the American Heart Association's website or call the National Service Center at 877-AHA-4CPR (877-242-4277).
