In the wake of hurricanes, floods, earthquakes, wildfires, tornados, and other physical disasters, the U.S. Small Business Administration's (SBA) Disaster Loan Program plays a major role.

SBA offers low interest disaster loans to homeowners, renters, businesses of all sizes, and private, non profit organizations to repair or replace real estate, real property, machinery and equipment, inventory, and business assets that have been damaged or destroyed in a declared disaster.

SBA's disaster loans are the primary form of Federal assistance for non farm, private sector disaster losses. For this reason, the disaster loan program is the only form of SBA assistance not limited to small businesses. Disaster loans from SBA provide homeowners, renters, nonprofit organizations, and businesses of all sizes with needed funding to rebuild after a disaster. SBA's disaster loans are a critical source of economic stimulation in disaster ravaged communities, helping to spur employment and stabilize tax bases.
