Forest has a Patient Assistance Program that provides medication for qualifying patients at no charge. If the patient qualifies, a 3 month supply of the requested drug will be shipped to the patient's licensed practitioner for dispensing to the

patient. Call for a list of drugs available.

The patient and the physician must complete and sign the Patient Assistance application form and a prescription for a 3-month supply should be attached for each drug being requested.

Controlled substances are not available on the Patient Assistance Program.
