Available to citizens statewide, Virginia's public mental health, intellectual disability and substance abuse services system is comprised of 40 locally-run community services boards ([CSBs](#)) and 16 [state-operated facilities](#) . The CSBs and state

facilities serve children and adults who have or who are at risk of mental illness, serious emotional disturbance, intellectual disability, or substance use disorders. Virginia's state-run facilities provide highly-structured, intensive services and consist of: seven mental health facilities, five intellectual disability training centers, a psychiatric facility for children and adolescents, a medical center, a psychiatric geriatric hospital and a center for behavioral rehabilitation (SVP). For placement in state facilities, patients are initially evaluated and referred from local CSBs.
