**\*\*\*This agency is a recipient of the Autism, Behavioral Supports, and Complex Health Supports Provider Specialty Designations.\*\*\***

We offer two service models for group homes. Many of the Wall Residences group home licensed services are provided in the home of a family provider. The professional family and the individuals with disabilities are integrated in a large family unit with participation in all the usual family and community activities that are available to any other community citizen.

The second group home model is based upon the traditional shift based model for people who do not choose to live in a family environment but prefer or need the more varied support of staff who come into the home on a shift-scheduled arrangement. Services in this model are designed to group people who are compatible to live together and may be able to offer peer emotional support.

Services to individuals with long term mental illness and services to children may be available on a case by case basis.
