Camp Fantastic started in 1983 and is Special Love's hallmark program, offering a week-long adventure to children ages 7-17 who have received cancer-specific treatment within the past three years. Medical care is provided.

Camp Fantastic provides young cancer patients with an opportunity to step back from the seriousness of their disease and enjoy normal childhood activities and the bonds of friendship with other children who share similar experiences.

Camp Fantastic provides classes, recreation, themed adventures, campfires, and other exciting activities and a full staff of medical caregivers make it possible for children to attend in virtually any stage of treatment.
