English

FAHASS provides HIV testing services. FAHASS is a recognized testing location for people wanting to know their HIV status.

Each test is conducted by a trained and certified HIV testing and prevention counselor. The counselor is able to discuss confidential issues in a non-judgmental setting. A counseling session might discuss some of the following topics:

- How often someone should be tested
- Education on STD transmission
- Ways to reduce the risk of becoming infected with HIV and other STDs
- Next steps for people who have a reactive test result
