IncrediCare offers skilled nursing services provided by a Licensed Practical Nurse (LPN) and overseen by a Registered Nurse (RN.) Skilled nursing services can include wound care, diabetes care, medication management, injectables, trachea care, ostomy care, IV therapy, post surgical care, cardiac and respiratory care and more. Services administered by a licensed nurse.

Disease Management:

People with chronic (long-term) conditions generally rely more on the health care system, including physicians, hospitals, and prescription medications. Increases in the number of people living longer with chronic conditions have doubled, and rising health care costs have made it so health insurers, employers, and the government are all looking for ways to reduce health care use and costs.

Disease management is one approach that aims to provide better care while reducing the costs of caring for the chronically ill. IncrediCare's disease management programs are designed to provide acute and ongoing care to improve the health of our clients suffering from specific chronic conditions, and to reduce health care service use and costs associated with avoidable complications, such as emergency room visits and hospitalizations.

To learn more about our disease management programs call us at (703) 272-8838. For 25 years, IncrediCare has been known for our responsive, 24-hour on-call service across Northern Virginia. We are now serving Arlington, Alexandria, Fairfax, Loudoun, and Prince William counties.

The process of obtaining care for your loved one is not difficult. Contact us, answer some simple questions, and we will respond quickly to arrange the disease management care you need in less than 2 hours. Our care managers will be there to meet with your family at the location you specify within 120 minutes.

Call the office for more information.

IncrediCare is owned by Pelullo Health Services, Inc.
