The National Council on Aging (NCOA) offers information on chronic disease and self-management education programs (CDSEME).

Programs focus on chronic disease, fall prevention, mental health, exercise, and more. Programs are often available at senior centers, area agencies on aging, churches, libraries, and other community locations. Some programs are one-on-one and others are in groups.

Better Choices, Better Health® (Online CDSMP, Asynchronous) is an online interactive version of the Chronic Disease Self-Management Program (CDSMP). In this program, a participant will log on when convenient for a total of 2 hours per week. All information is private and anonymous.
