Fusion Physical Therapy offers hands on physical therapy and individualized treatment. A few of the more common diagnoses that Fusion treats are:

- Knee, hip, ankle, arm and wrist injuries
- Pre and post surgical conditions
- Pain associated with osteoarthritis and rheumatoid arthritis
- Neck and low back pain
- Generalized weakness
- Carpal tunnel

Other therapy services available include Orthopedic manual physical therapy, functional dry needling, neurological rehabilitation, vestibular rehabilitation, LSVT Big program and worker's comp rehabilitation, prosthetic rehabilitation, wheelchair evaluation, and more.

Physical therapy can help with fall prevention. Call for assessment to determine your risk of falls so the physical therapist can develop an individualized program.
