The Infant & Toddler Connection of Virginia provides early intervention services to infants and toddlers from birth through 2 years of age who are not developing as expected or who have a medical condition that can delay typical development. Early intervention supports and services focus on increasing the child's participation in family and community activities that are important to the family. Supports and services focus on helping parents and other caregivers know how to find ways to help the child learn during everyday activities.

Services must be provided in the family's native language unless clearly not feasible to do so.
