The Center for Parent Information & Resources (CPIR) Resource Library houses over 1,000 family-friendly informational or research-based materials on key topics for Parent Centers. This includes more than 450 materials transferred from NICHCY when its funding ended and CPIR began (e.g., fact sheets, IDEA training materials, parent guides, explanations of early intervention and special education, the IFSP and IEP, transition planning). We also offer descriptions of publications, tool kits, videos, and fact sheets produced by other well-known and credible sources of information, and give you links to those materials. [Find Your Parent Center](#)

The e-newsletter, Buzz from the Hub, highlights hot new resources and upcoming events and materials you can share via social media.
