iCan Bike programs are offered for people with disabilities ages eight and up. The adapted iCan Bike program resulted from more than twenty years of research by Dr. Richard E. Klein, a mechanical engineering professor, and his students at the University of Illinois at Urbana-Champaign. iCan Bike is offered as a five-day camp or as an after-school bike program, depending upon the locality.

The program currently offers Virginia iCan Bike camps in Roanoke, Richmond, Virginia Beach, Fairfax and Leesburg.

Service Area(s)

Nationwide
