Therapeutic Adventures, Inc offers Operation Freedom Outdoors (OFO) which in part, uses adaptive sports and outdoor adventures to help our Disabled Heroes - Military, Warfighters, Veterans, 1st Responders, and their Families to reclaim their future, to achieve functional independence and to improve their quality of life.

Opportunities to build a strong foundation of skills and behaviors in a supportive environment where healing and post-traumatic growth can take place is essential. Our approach, in part, helps with the journey to restore, to rebuild, and to re-create the injured body, mind and soul, and to find a new life purpose after trauma.

- Adaptive Snow Sports (skiing & snowboarding, xc-skiing)
- Adaptive Paddle Sports (canoeing, whitewater kayaking, sea kayaking/touring, SUP)
- Bug Slinger™ Warriors - Fly Fishing (freshwater, saltwater)
- Adaptive Climbing
- Cycling (hand-cycling, recumbent, tandem)
- Fitness, Conditioning, and Yoga.

Service Area(s)

Statewide
