Sentara Neurology Specialists is a group of doctors that diagnose and treat disorders of the brain, spinal cord and nervous system.

The ALS Association's Certified Treatment Centers of Excellence and Recognized Treatment Centers provide compassionate care in a supportive, family-oriented atmosphere.

This multidisciplinary care model brings together a team of health care professionals specially trained to address the needs of people living with ALS, allowing them to receive care from each discipline during a single visit. The care team typically includes a neurologist, physical therapist, occupational therapist, respiratory therapist, nurse, dietitian, speech-language pathologist, social worker, mental health professional and an ALS Association Chapter liaison.
