Pandemic of Love is a nonprofit disruptor. It is a mutual aid community of care that was started in response to the COVID-19 epidemic. It humbly began on March 14th, 2020 by one person and was intended to help her own local community. But, like an epidemic, the act of love and kindness spread quickly and is now a beautiful movement helping those in need throughout the world.

What is a mutual aid community? It connects people in need with patrons who can help with that need. This is a tangible way for people to give to each other, quickly, discretely and directly. There is no overhead and no fees. It's the most direct way to give.

Service Area(s)

Nationwide
