Airia offers an App Store and Google Play app that gives users who are blind or have low vision on-demand access to the visual world.

When you need to do something where some extra information can help you save time and be more efficient, just open the app and give Aria a call. You will connect with real, trained people who can see your surroundings through your phone's camera.

Protecting your privacy and ensuring you feel secure using Aira's top priorities. Anyone you connect with will have passed background checks, signed strict privacy clauses, and undergone weeks of training.
