No Fee

The VCU Rehabilitation Research and Training Center on Employer Practices for Individuals with Disabilities is a program for individuals with disabilities looking for information on employment. They provide you with research studies with information such as:

- systematic review and case study analysis of employer practices related to recruiting, hiring, training, integrating, retaining, and promoting
- development and validation of a comprehensive employment outcome measure
- an in-depth case study of a large health systems' employer practices to promote employment outcomes
- an analysis of business practices that head to performance and retention of people with disabilities in the workplace
