For Safety's Sake. LLC provides client-centered evidence-based home safety assessments with recommendations/reasoning for modifications to help older adults, people with different abilities, and their caregivers to safely and efficiently thrive in the home and community.

They do not do home modifications but provide either a letter of medical necessity and/or a list of recommended modifications, products, and best practices to support increased independence, safety, accessibility, and quality of life to safely thrive as much as possible.

Telehealth visits available statewide.
