Universal Transitional Care Center is offered by Universal Health Corporation to ease the strain on nursing homes. This service is for patients in transition between an acute stay in a hospital or rehabilitation center and returning to home full-time. This outpatient care for recently discharged patients serves as a bridge for the time when you are well enough to leave the hospital but are not yet strong enough to stop receiving care altogether. Patient needs addressed include:

- wellness checks
- medication management
- new-onset illness and change of condition
- easy access to follow-ups
- wound evaluations
- behavioral change assessments

Service Area(s)

Statewide
