Grace Home Healthcare provides in-home personal care services ranging from 4 hours per day to 24/7 care, helping individuals with day-to-day activities and stay independent and avoid moving to a higher level of care. Their personal care service is delivered under the supervision of a registered nurse. An aide is assigned when there is a specific need for personal care on a part-time basis in the home. Typical duties include bathing, shampooing hair, changing bed linens, and assisting with other activities of daily living. All tasks are specifically time involved in the accomplishment of tasks rather than in terms of hours or minutes.
