

DBHDS established the Individual and Family Support Community Coordination Program to assist families and individuals with developmental disabilities on the DD Waiver Waiting List so that they may live, work, and play in their communities.

The IFSP-Community Coordination Program is a partnership made up of:

1. **The IFSP State Council:** A coalition of individuals who are on the DD Waiver Waiting List, family members, or caregivers, that serve as an advisory board to DBHDS.
2. **IFSP Regional Councils:** Five coalitions of individuals who are on the DD Waiver Waiting List, family members, caregivers, or providers, working at a grassroots level to increase supports in their communities.

We want to work with you! If you or someone you know may be interested in sharing your voice and talents with our Councils, please apply until 11:59 p.m. on Friday, October 11th!
