Languages Spoken

English

Therapeutic consultation service means professional consultation provided by members of psychology, social work, behavior analysis/consultation, psychiatry, psychiatric clinical nursing or therapeutic recreation disciplines. These professionals are trained to assist individuals, parents, guardians, family members, and any other providers with implementing an individual support plan.

This service provides assessments, development of a therapeutic consultation support plan, and teaching in any of these designated specialty areas to assist family members, caregivers, and other providers in supporting the individual enrolled in the waiver. A therapeutic consultation service plan is a report of recommendations resulting from a therapeutic consultation that is developed by the professional consultant after they spend time with an individual to determine the individual's needs in their area of expertise.

Service Area(s)

Statewide
