Innovation Behavior Services empowers individuals with developmental disabilities and their families through professional Therapeutic Consultation services available via telehealth.

They provide services via telehealth consultation, which is available throughout the state where an adequate internet connection and access to a computer or smartphone with a camera, microphone, and speaker are available. There is limited access to in-person visits in Northern Virginia based on clinical necessity and availability.

At Innovation ABA, they turn challenges into opportunities, helping individuals achieve meaningful, lasting results for a brighter, more independent future. Let them support you with hope, optimism, and transformative care - wherever you are in Virginia.
