Virginia LearningRx centers offer specialized cognitive training services designed to enhance the cognitive skills of individuals with developmental disabilities. Evidence-based programs focus on improving memory, attention, processing speed, problem-solving and reading abilities, empowering clients to reach their full potential. With a personalized, one-on-one approach, training is tailored to meet the unique needs of each individual. Trained staff work with families and provide ongoing support throughout the learning journey. Approved by Medicaid under the DD waiver program, LearningRx promotes accessibility and excellence in service delivery, ensuring meaningful outcomes for individuals and their families.

Services are offered in-clinic within Region 10 and statewide via Telehealth.
